

REMARKS/ARGUMENTS

Independent Claims 1, 10 and 11 have been amended to overcome the rejection under 35 U.S.C. §103(a) by including the allowed subject matter of Claim 7 relating to the magnifying glass being movable between different positions.

Amended Independent Claim 1 is a combination of Claim 1 and allowed Claim 7 of the claimed invention and is now in condition for allowance. It now recites that the magnifying glass is movable between different positions to avoid or reduce the reflection of ambient light, which has not been previously disclosed in the prior art.

Amended Independent Claim 10 is a combination of Claim 10 and allowed Claim 7 of the claimed invention and is now in condition for allowance. It now recites that the magnifying glass is movable between different positions to avoid or reduce the reflection of ambient light, which has not been previously disclosed in the prior art.

Amended Independent Claim 11 is a combination of Claim 11 and allowed Claim 7 of the claimed invention and is now in condition for allowance. It now recites that the magnifying glass is movable between different positions to avoid or reduce the reflection of ambient light, which has not been previously disclosed in the prior art.

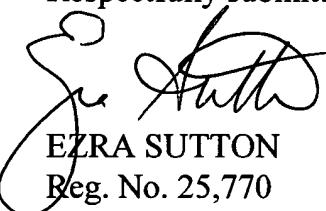

CONCLUSION

Independent Claims 1, 10 and 11 have been rewritten to include the allowed subject matter of Claim 7, and therefore Amended Independent Claims 1, 10 and 11 are now allowable.

Additionally, even if the prior art patents of Liang '093 and Mastnak '263 are combined, they do not teach or disclose the claimed features of Amended Independent Claims 1, 10 and 11 and the Claims which depend therefrom.

For these reasons, it is respectfully submitted that applicant's Claims 1 through 6 and 8 through 12 are now allowable, and such action is respectfully requested.

Respectfully submitted,

EZRA SUTTON
